

## Label Performance Dashboard Template

The **Label performance dashboard template** features a handful of baseline content metrics for your labeled posts in Social Media Management. In addition to the Label performance widget, which lists your top-performing [labels](#), this dashboard template also includes a unique Bubble view widget that shows your top-performing labeled posts as a word cloud. [Exporting your dashboard](#) allows you to report on your label metrics.

Widget Name	Widget Type	Metrics
#Impressions	Bubble view	Posts with label, impressions, reach avg.
#Posts	Bubble view	Posts with label, impressions, reach avg.
Labelled content performance	Content performance	Impressions, reach avg., engagements, engagement rate (reach), reactions, comments
Label performance	Label performance	Impressions, reach avg., engagements, engagement rate (reach), reactions
