## Google Slides Integration

### Step-by-step guide

1. Create a deck
2. Within the deck, “Add Component” to your slide.
3. Choose Google Slides from the drop down menu.
4. Choose the Google Slides component:

5. Once you have selected the component, you will need to authenticate with your Google Account by clicking **'Add Token'**.

## 6. Complete the authentication flow.

### Authorising Vizia Safely With Google

We recommend that you connect Vizia to a 'service account' for this data source (e.g. [vizia.connect@yourorganisation.com](mailto:vizia.connect@yourorganisation.com)). A service account should have limited access to your data and be set up specifically for integration with third parties.

☒ I am happy for Vizia to store the following authorisation details and allow other Vizia users within my organisation to access my data.
