Section: Sharing

Private Links

3 years ago · Updated · [Print/PDF](#) 

Translate this article: 

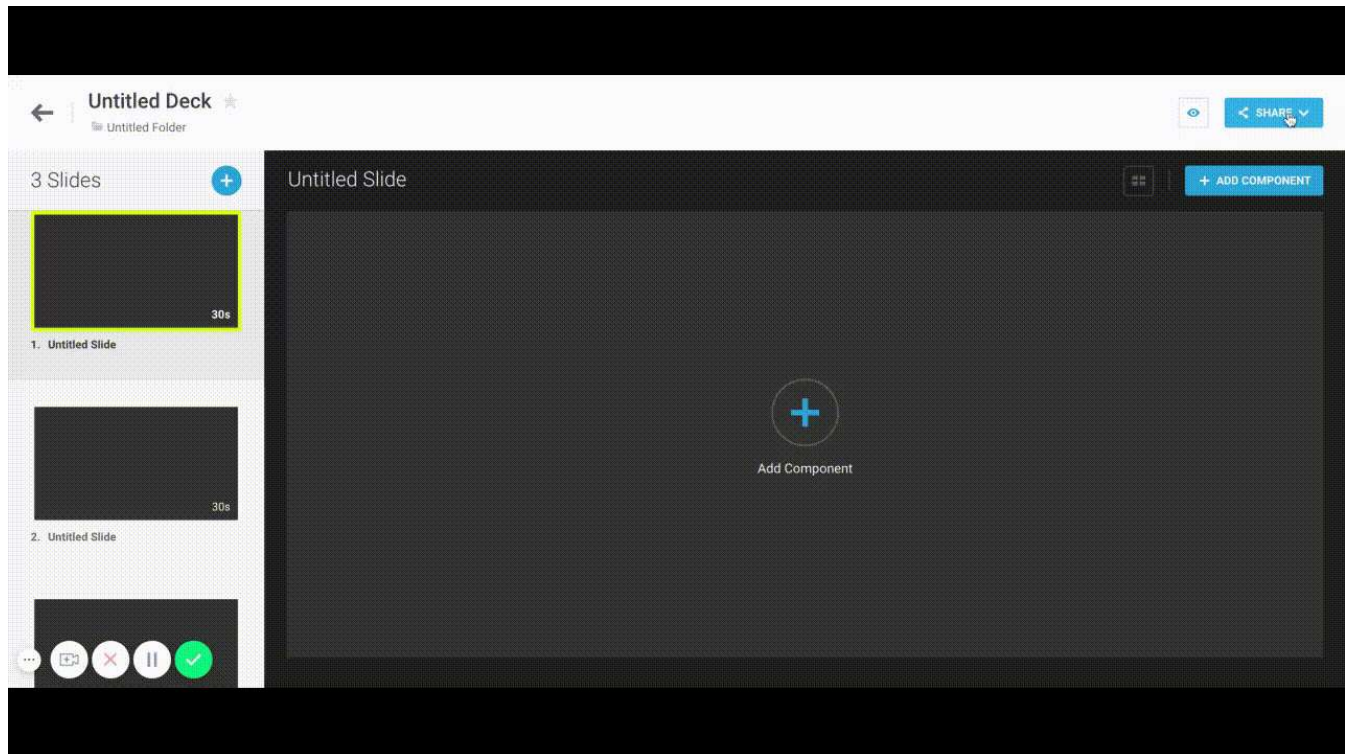

Private links help you share your Vizia decks quickly, securely and at scale.

This is particularly useful if you need to share important business information across your organization at large. It's also a great sharing tool when working with remote colleagues, regardless of where in the world they are.

How it Works

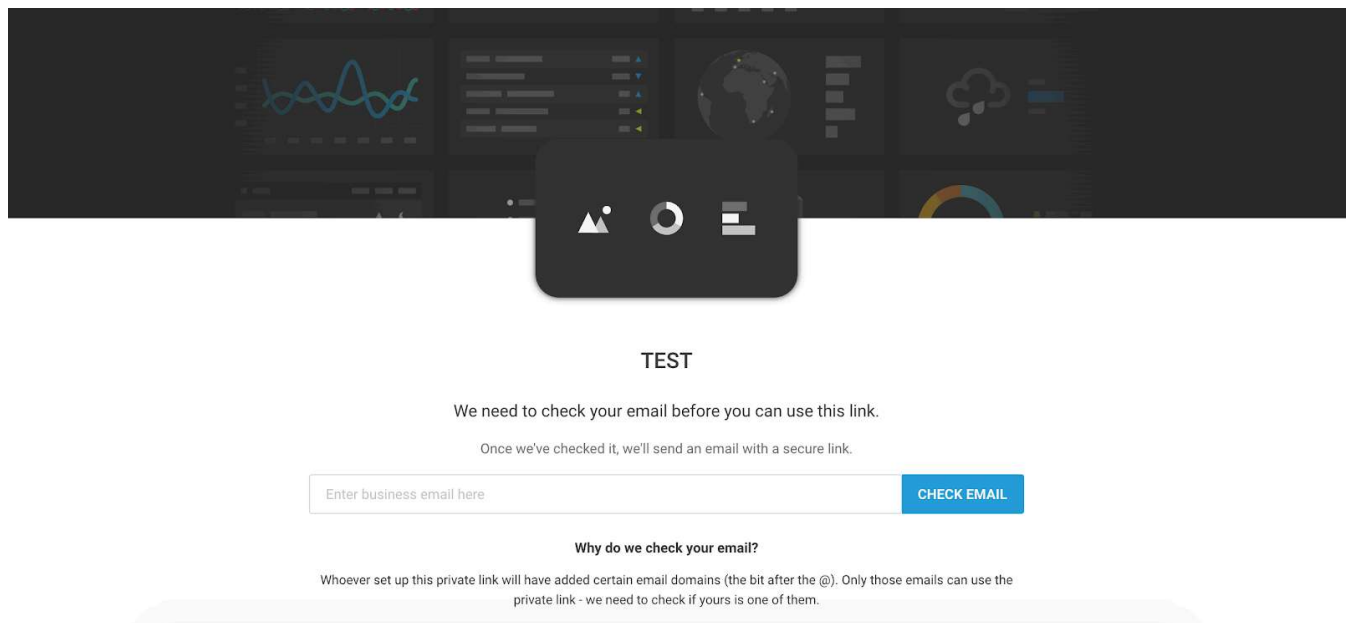

1. Set-Up

Once you are in the Vizia deck that you'd like to share, click "Share", "Send to People", "Private Link". Click on "Add Allowed Domains", and enter your organization's domain to identify who can view the deck. For example, entering @brandwatch.com would allow access for all employees of Brandwatch.

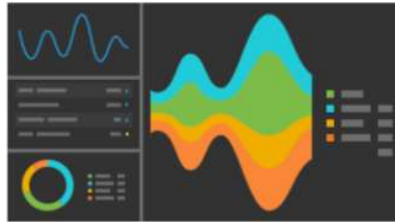

2. Sharing the Deck

Vizia generates a URL which you can copy and paste to share with your team across email, instant messenger, internal staff portals or however else you choose. When a colleague clicks on the URL, they will be prompted to enter their email address as a one time authentication check.

3. Getting Access

Once a colleague has entered their approved email address, they will be sent their personal private link via email. They can then view the Vizia deck whenever they like by using this link, without any further authentication required.

Vizia has invited you to view the Vizia Deck

TEST

[VIEW DECK](#)

We recommend that you view this Vizia Deck in Chrome. Once clicked, this link will only be valid on this device. It will remain live for one year.

Please note: Vizia Private Links uses cookies. This means that if a user attempts to open a private link in a different browser, they may be asked to authenticate again.
