**Configuring Payments**

Note:

The Payments tool is available to Pro and Premium Influence clients. If you are interested in Influence's full suite, please contact your Customer Success Manager (CSM) for details.

With the Payments tool, you can integrate Influence with your Tipalti account to seamlessly pay your influencers in our platform. In this article, learn how to integrate your Tipalti account with influence and get set up to pay your influencers.

Tip:

After your Customer Success Manager (CSM) has enabled the Payments tool for your Influence suite, you will see the Payments tool icon in your Influence navigation sidebar. In your Payments tool dashboard, click **Connect Account** to set up your Tipalti integration.

The authentication flow will display a pop-up window where you can enter your Tipalti account credentials. After logging in, complete the two-step verification and then check **Allow** in the access screen to grant Influence the necessary permissions to Tipalti, then click **Confirm**.
